SAAR, E.

(zär)

A territory of Germany (area 740 square miles) lying on the French border southeast of Luxemburg and, following the World War, placed under the direct administration of the League of Nations for a period of fifteen years.

In accordance with these terms, a general plebiscite was held on Sunday, January 12, 1935, the result of which proved an overwhelming preponderance of the population favored return to Germany, and accordingly from that time the Saar, as a separate stamp-issuing unit, ceased to exist.

To celebrate the result of the plebiscite, a separate series of stamps was issued by Germany picturing allegorically the return of Saar to the Fatherland. (See Germany Type A74.)

ST. CHRISTOPHER, W. I.

(sânt kris'tô-fêr)

An island in the West Indies which, together with Nevis and Antigua, comprises one of the five Presidencies of the British Leeward Islands colony. St. Christopher is also known as St. Kitts. Postage stamps were discontinued in 1890 and those of the Leeward Islands substituted. In 1903 separate stamp issues were resumed for St. Christopher under the name of St. Kitts and used concurrently with Leeward Islands issues. (See St. Kitts-Nevis and Leeward Islands.)

No such cancellation was ever used in the Island and the stamps so cancelled are of no philatelic value. Collectors are warned against these stamps, from which the cancellations have been removed.

ST. KITTS-NEVIS, W. I.

(sánt kits'-né'vis)

Two islands in the West Indies which, together with the island of Anguilla, form one of the five Presidencies of the British Leeward Islands colony. Prior to 1890 the island was known as St. Christopher and postage stamps so inscribed were used. From 1890 to 1903 the postage stamps of the Leeward Islands were used. In 1903 separate stamp issues were again undertaken under the name St. Kitts-Nevis and are used concurrently with Leeward Islands issues. (See St. Christopher and Leeward Islands.)

SALVADOR, EL, C. A.

(êl sâl'vâ-thôr')

The smallest and most densely populated of the Central American republics. It is located on the Pacific coast lying between Guatemala, Honduras and the Gulf of Fonseca. In area (13,175 square miles) and population, El Salvador is comparable to the State of Maryland. The country consists of a large plateau about 2,000 feet above sea level and broken up by numerous volcanic cones. The volcanoes do not make a chain but consist of four or five clusters of smoking peaks, some of which rise 8,000 feet above sea level. One of these cones, San Miguel, is stated to be the most treacherous burning mountain in all America. It lies dormant for years at a time only to burst forth unexpectedly in violent eruption. Capital, San Salvador.

The stamps of this issue, as originally printed, had the portrait of Antonio Ezeta, brother of President Ezeta, in a different frame for each value. He was overthrown and before the stamps were issued the portrait was overprinted with the National Coat of Arms. The stamps without overprint were never regularly issued though copies have reached collectors.

The 2c has been reprinted in dark yellow green on thick paper.

SAMOA, O.

(sä-mō'a)

Formerly an independent kingdom in the South Pacific Ocean, lying east of Fiji. American influence dates from 1872, when the Harbor of Pago Pago was ceded to the United States for a naval coaling station. In 1889 a conference between representatives of the United States, Germany and Great Britain resulted in a treaty which recognized Samoa as a neutral territory, the natives being allowed to follow their own laws and customs. In 1898 a disturbance arose over the right of succession to the office of king, which resulted in Great Britain's withdrawing all claims to any portion of the islands and the United States withdrew from all islands west of Tutuila. Early in the World War the islands under German dominion were occupied by New Zealand troops and in 1920, the League of Nations declared them a mandate to New Zealand. The name "Territory of Western Samoa" has been adopted as the proper designation of the mandate.

The 1p frequently has a period after the word "PENNY."

The 2p was never placed in use.

Imperforate stamps of this issue are printer's waste.

The sheets of the first issue were not perforated around the outer sides. All values except the 2p were printed in sheets of ten, two rows of five. The 1p, 3p and 6p type I and the 1p type III were also printed in sheets of twenty, four rows of five, and six stamps on each of these sheets were perforated all around. The 2p was printed in sheets of twenty one, three rows of seven, and five stamps in the second row were perforated all around.

These are the only varieties of the original stamps which have not one or two imperforate edges.

The reprints are all of type III and are nearly always perforated on all sides. They have a spot of color at the edge of the panel below the "M" of "SAMOA" which is not found on any originals except the 2p, which may be distinguished by its color, and the 6p which may be distinguished by having a rough blind perforation 12.

SAN MARINO, E.

(sän mü-ré'nò)

An inland European republic located in eastern Italy. The country is entirely surrounded by Italy and its area, 38 square miles, entitles San Marino to the distinction of being probably the smallest sovereign state in the world. Claims are advanced that it is the oldest state in Europe. An electric railway was completed in 1932, from Rimini to the City of San Marino. Capital, San Marino.

In 1911 No. 48 appeared on yellowish tinted paper and measured about 4mm. more in width than hitherto. It was stated that the stamp had been re-engraved. We do not find any changes in the design and believe the slight difference in size was because the new paper did not shrink as much after printing as the old.

SARAWAK, O.

(sà-rä'wäk)

A Malay Sultanate under British protection, comprising some 40,000 square miles on the northwest coast of the Island of Borneo. The ruling Raja is Sir Charles Vyner Brooke, an Englishman who inherited the title from his father, Sir Charles Johnson Brooke, who in turn received the title from his uncle, Sir James Brooke. The title of Raja was conferred upon Sir James by Raja Muda Hassim after Sir James had aided him in subduing a revolt. The title and the right of succession have been duly recognized by the Sultan of Brunei and Great Britain. Capital, Kuching. See North Borneo.)

SARDINIA, E.

(sär-din'i-ä)

The former Kingdom of Sardinia originally consisted of an island in the Mediterranean Sea off the west coast of Italy and a large area in the northwest corner of Italy, including the cities of Genoa, Turin and Nice. As a result of war and revolutions, most of the former independent Italian States were united to the Kingdom of Sardinia in 1859 and 1860. On March 17, 1861 the name was changed to the Kingdom of Italy.

SCHLESWIG, E.

(shlās'vīk)

Prior to the World War a part of the Prussian Province of Schleswig-Holstein. Following the Treaty of Versailles Schleswig, which formed the northern portion of the Prussian province, was divided into two sections, as North and South Schleswig. Plebiscites were held in 1920 and North Schleswig voted to become part of Denmark, while South Schleswig indicated its desire to remain German. Accordingly the country was divided as the will of the people indicated.

SENEGAL, AF.

(sēn'è-gól')

A French colony on the west coast of Africa. Area, 74,000 square miles, or about as large as the State of Nebraska. The country produces castor beans, rubber, coconuts, etc. The bulk of the exports are ground nuts. In recent years the colony has assumed some importance because of the city of Dakar, which forms an important port for contact with South America by air.

SHANGHAI, A.
(shāng'hí')

The City of Shanghai lies on the Whangpoo River, near its confluence with the Yangtze in the Province of Kiangsu. A British settlement was founded there in 1843 and by agreement with China settlements were established by France and the United States. Special areas were set aside for the foreign settlements and a postal system independent of China was established, which was continued until 1896. Shanghai is one of the largest cities in the world, the population being estimated at over three million.

The 1912 stamps with value in bahts are 37 mm. high; those of 1917 are 39 mm. In the latter the king's features, especially the eyes and mouth, are more distinct and the uniform and decorations are more sharply defined.

The 1912 stamps have seven pearls between the ear pieces of the crown. On the 1917 stamps there are nine pearls in the same place.

SIERRA LEONE, AF.

(si-er'a lé-ō'né)

A British colony and protectorate on the west coast of Africa, lying between French Guinea and Liberia. The country originated in 1788 when a native king sold to English settlers a piece of land intended as a home for natives of Africa who were waifs in London. The colony proper extends along the coast and inland from 8 to 20 miles and has an area of 4,000 square miles. The Protectorate extends inland about 180 miles and is about 27,000 square miles in area. The whole represents an area comparable with the State of Maine. Capital, Freetown

(south bül-gâr'i-â ; bööl-gâr'i-â)

Formerly an autonomous province of Turkey (Eastern Rumelia q. v.) which revolted against the Turkish rule and united with Bulgaria. The territory then became known as South Bulgaria and following the war between Serbia and Bulgaria the union of South Bulgaria with Bulgaria was assured by the Treaty of Bucharest (1886). Bulgarian postage stamps have since been used.

SPAIN, E.
(spān)

Until 1931 a monarchy, in south western Europe lying south of the Pyrenees Mountains. In that year King Alfonso XIII was forced to leave his throne and a republic was established. By March, 1939, following a war which lasted almost three years the government of General Francisco Franco was generally recognized. Area, 190,050 square miles.

8 CUARTOS=1 REAL. 100 CENTIMOS=PESETA. 1000 MILESIMAS=1 ESCUDO.
34 MARAVEDIS=1 REAL.

The stamps of Spain punched with a small round hole have been withdrawn from use. The hole indicates that the stamps are no longer available for postage. In this condition they are worth only a trifle, as compared with postally used copies.

Stamps cancelled with three parallel horizontal bars are remainders and are worth much less than those with postal cancellation.

We do not recognize the various souvenir sheets of Toledo (2 sheets of 1), Monuments (sheet of 4), Army-Navy (sheet of 25), Submarine (sheet of 3), Don Juan (2 sheets of 1), and Battle of Lapanto (2 sheets of 1) as having been issued primarily for postal purposes.

REVOLUTIONARY OVERPRINTS.

Issued by the Nationalist
(Revolutionary) Forces.

Many districts or cities made use of the stamps of the Republic overprinted in various forms. Most such overprinting (though not required) was more or less regularly authorized by military or postal officials but some were without official sanction. At best, these stamps must be considered somewhat in the nature of local celebration issues or expressions of patriotism.

We list below some of the issues which to the best of our knowledge and belief were in regular postal use; but there were many others. At this time we are not in a position to determine definitely the status of all. We shall, however, as more information is obtained, add to or delete from these listings to accord with the facts learned. Catalogue numbers are omitted until a later time.

Authentic data and information is earnestly solicited.

SWAZILAND, AF.
(swä'zè-länd')

A former independent state of Africa, located in the southern part of Transvaal. The state was founded by native Barabuzza tribes headed by a chief named Swazi. In 1889 the natives requested annexation to Transvaal and granted the latter postal concessions within their territory. Swaziland became a part of the South African Republic (Transvaal) in 1895. On June 25, 1903, an Order in Council was issued conferring on the Governor of the Transvaal authority over Swaziland, and by Order in Council of December 1, 1906, this authority was transferred to the High Commissioner for South Africa.

TASMANIA, O.

(täz-mä'nī-ä)

An island off the southeastern coast of Australia and one of the six original colonies which joined together in 1901 to form the present Commonwealth of Australia, a self-governing Dominion of the British Commonwealth of Nations. Tasmania is named after its discoverer, Abel Tasman, who gave it the name of Van Diemen's Land, after his patron, Van Diemen. The present name was adopted in 1853. Stamps of Australia are now used.

12 PENCE=1 SHILLING.
20 SHILLINGS=1 POUND.

Pen cancellations are common on the stamps of Tasmania. They usually indicate that the stamps have been used fiscally and such stamps sell for very much less than those with postal cancellations.

The redrawn 1p bears an impression of the waterfalls and the trees above it. There are many slight changes to the clouds and other parts of the design.

The 1p is much lighter, especially the waterfalls and the trees above it. This has more the appearance of a new or cleaner issue than a redrawn one.

In the redrawn 1p there are more red lines in the waterfalls and the trees and more white dots in the trees.

TIBET, A.
(ti.bēt' : tib'ēt)

A semi-independent state in the Himalayan Mountains, north of Nepal and India. It was invaded by Chinese troops in 1911, who forced the Dalai Lama or head of the government to go into exile at Darjeeling, British India. The Chinese revolution furnished the Tibetans the opportunity for the expulsion of the Chinese troops and the return of their own government. The actual status of Tibet is rather confused. It is nominally considered to be under Chinese control, but in 1904 Great Britain negotiated a direct treaty with the Tibet government in which the Chinese government concurred in 1906. Area, 463,000 square miles. Capital, Lhasa.

TONGA, O.

(tōng'gá)

The Tonga or Friendly Islands, located in the South Pacific Ocean south of Samoa, are a British protectorate. Until 1899 they constituted a neutral region in accordance with the Declaration of Berlin (1886). By an Anglo-German Agreement the islands were constituted a protectorate of Great Britain in 1900 and this arrangement was subsequently accepted by the United States.

Mecklenburg Printings.

By Adolph Otto, Ginstrow.

Fine Impressions.

Table of postage stamps: 1 A1 1p brown lake, 2 A1 6p ultramarine, 3 A1 1sh dark green. Includes prices and 'Imperf.' label.

Rouletted 15 1/2, 16.

Table of rouletted stamps: 4 A1 1p red, 5 A1 6p ultramarine, 6 A1 1sh blue green. Includes prices and 'Imperf.' label.

Table of stamps: 7 A2 3p lilac, 8 A1 6p bright ultramarine. Includes prices and 'Imperf.' label.

Numerous trial impressions of the stamps of types A1 and A2 exist in both the accepted and rejected colors, including the 3p imperforate and the tête à tête as formerly listed. Some of them are on the original plates but the majority are from small experimental plates. Many of them can easily be told from the issued stamps by expert comparison.

There are reprints of the 6p, type A2, in duller shades than the originals.

The so-called reprints of type A1 were made from new plates. They are the design slightly altered, the most notable difference being in the head of the eagle which has the beak open and hooked like a parrot's.

Copies of Nos. 16 to 18 are sometimes so heavily inked as to be little more than blots of color.

Nos. 193 to 201 inclusive are always imperforate on one side.

The setting consisted of twelve stamps of type A18, six of type A19, and six of type A20. The first printings were of the ½p, 1p, 4p and 6p stamps and contained many errors of spelling, punctuation, etc. Many of these errors were corrected in the later printings, which comprised all the denominations of the series. On the ½p stamps of the first printing the initials of the Controller were written in black ink. On subsequent printings they were in red. Black ink was always used for all the other denominations.

NOTE.—Many recent issues of Italy and Italian Colonial stamps include one or more denominations with a surtax. These apparently should be listed as Semi-Postal stamps, but as doing so would divide the sets we shall hereafter list all such issues as regular postage, air post, etc., unless all denominations in the series bear a surtax.

TURKEY IN ASIA.

(Anatolia.)

(tûr'ki in ā'zhâ ; -shâ)

This is the territory at present known as Turkey and includes all Turkey in Asia Minor. It came into existence as a separate state following the uprising in 1919, led by Mustafa Kemal Pasha, and in 1920 the Nationalist government of Turkey was established. There was actually no separation of territory, the Sultan's sovereignty being almost immediately reduced to the immediate area of Constantinople. The formation of the Turkish Republic (1923) and the expulsion of the Sultan followed within the next few years, and Turkey in Asia absorbed the Turkish Empire. (See Turkey.)

TURKS ISLANDS, W. I.

(türks i'ländz)

A British island possession in the West Indies at the southern extremity of the Bahamas. In 1848 the Turks Islands together with the Caicos group, lying to the north west, were made a British Colony. In 1873 the colony was made a dependency under the government of Jamaica although separate stamp issues were continued. In 1900 the dependency was officially designated as Turks and Caicos and postage stamps so inscribed have since been used. The seat of government is at Grand Turk.

The stamps of the Two Sicilies were superseded by those of Italy in 1862.

Stamps similar to those of Sardinia 1855-61, type A4 but with inscriptions in larger, clearer lettering, were prepared in 1861 for the Neapolitan Provinces. They were not officially issued although a few are known postally used.

Denominations: 5c, 10c, 20c, 40c and 80c.

Collectors are warned against inverted hand varieties of this issue. Many bogus copies are now being offered.

UGANDA, AF.

(ù-gän'dä ; öö-gän'dä)

A British possession in east Africa. (See Kenya and Uganda)

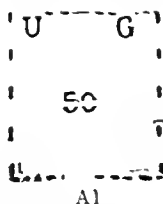

Inasmuch as there was no printing press in Uganda in 1892, the first stamps for the Protectorate were produced from an ordinary typewriter owned by the Rev. E. Miller of the Church Missionary Society. Mr. Miller personally typed all of the stamps as his was the only typewriter in the Protectorate. The first stamps produced were wide (20 to 26 millimeters), there being 9 stamps in a horizontal row. Later two more stamps were added to each row resulting in the stamps being typed much narrower (16 to 18 millimeters wide). Mr. Miller disposed of his typewriter in 1895 upon receipt of a new machine and the stamps produced thereafter were of different appearance. Toward the end of 1895, a new ribbon was received and the stamps then made their appearance in violet ink.

The 35c and 45c stamps (see note after No. 43) were produced in black and violet as a favor to a philatelist but were not intended for postal use as there was no rate calling for these denominations.

Stamps now in use are those issued for Kenya, Tanganyika and Uganda. (See Kenya.)

UKRAINIA, E.

(ù·krân'î·á)

Prior to the World War, **Ukrainia** comprised a part of the Russian Empire, lying in the southwestern area of that country, bordering on the Black Sea. Following the collapse of the Russian Empire a National Assembly met at Kiev and formed the **Ukrainian National Republic**. On July 6, 1923, **Ukrainia** joined the Soviet Russian Union and since that time the postage stamps of Soviet Russia have been in use.

α. Vertical pair, Type A5 1.50

44 A6 1/2p blue green & black 4 2
α. Vertical pair, Type A6 1.50

In the 1930 stamps the horizontal lines in the circle are wider apart than in the 1926 stamps. The Springbok's head, the leaves and the ornaments are less shaded and the general effect is lighter in 1930.

1926

Redrawn (1930)

45 A7 1p carmine rose & black 6 2

46 A8 1p carmine rose & black 6 2

The stamps of 1930 differ from those of the 1926 issue in many minor details. The lines of the central oval are much finer and clearer in the 1930 issue; the flag is almost devoid of shading; and the letter "R" in the various inscriptions has the tail straight instead of curved.

1931

1926

Redrawn (1931)

47 A9 6p orange & green 30 4

48 A10 6p orange & green 30 4

On the 1931 stamps the "R" in "AFRICA" and "AFRIKA" has a straight tail instead of curved. The horizontal lines in the central oval are heavier than in the 1926 stamps, and the arabesques below the oval and the laurel leaves are lighter.

Perf. 14.

49 A11 2p dull violet & greenish gray 8 2
50 A12 2p dull violet & greenish gray 8 2

On Nos. 49 and 50 part of a War Memorial appears just above the numeral of value. This is not shown on Nos. 29 and 30.

51 A13 3p brown red & black 30 4
52 A14 3p brown red & black 30 4

The lines of the designs, especially those of the trees, are heavier on the 1931 stamps than on those of the 1927 issue. In 1927 the frame at the top of the stamps had three heavy lines and two very thin ones. In 1931 the two thin lines were omitted.

1932

53 A23 4p reddish brown 20 3
54 A24 4p reddish brown 20 3

The 4p stamps of the 1928 issue have a fine quadrille background in the upper corners. The veins of the palm fronds are indicated by rows of fine dots. On the 1932 stamps the background is solid and the palm fronds are shaded by fine lines.

55 A15 1sh deep blue & gray brown 50 4
56 A16 1sh deep blue & gray brown 50 4

The 1 shilling stamps of the 1927 issue have the designs clearly outlined and the colors strong. On the 1932 stamps the outlines are slightly blurred and the color of the picture is very light.

1933

57 A17 2sh 6p red brown & blue green 1.25 25
58 A18 2sh 6p red brown & blue green 1.25 25

On the 1927 stamps the lines of the picture are sharply cut and the impression is clear. On the 1933 stamps, the lines of the picture are less sharp and the impression is slightly blurred.

Nos. 55 and 56 are 27mm. wide and Nos. 57 and 58 are 27 1/2 mm. wide

Hyphen between Suid-Afrika.

59 A19 5sh green & black 2.50 40
60 A20 5sh green & black 2.50 40

On the 1927 stamps the picture is strongly shaded throughout. On the stamps of 1933 the shading is weaker, especially that of the clouds, and there are only very faint traces of the shading behind the numerals "5" and the shilling marks.

UPPER SILESIA, E.

(ũp'ēr si-lě'shi-à ; -shà)

The territory which prior to the World War was part of Germany. A plebiscite held under the terms of the Treaty of Versailles failed to determine the status of the country, the voting resulting about equally in favor of Germany and Poland. Accordingly the League of Nations divided the territory between Germany and Poland, to be governed by a mixed commission until 1936. Poland's section comprises the south-eastern part of the territory.

The first printing of the 1 peso stamp had the coat of arms smaller with quarterings reversed. These "error" stamps were never placed in use and all were ordered burned. A copy is known to have been in a celebrated Uruguayan collection and others may exist but, at best, they can only be considered as essays.

Only a few of the larger values since King stamps at this period and the majority of specimens were cancelled with pen marks. Fiscal cancellations were also made with the pen. The prices quoted are for pen-cancelled copies.

Nos. 47 to 53 were used for the payment of postage on letters to be sent abroad and the Escuelas stamps were then restricted to internal use.

Reprints of this issue exist in a great variety of shades as well as in wrong colors. They are on thick and thin paper, white or toned, and perforated 11, 12 and compound. They are also found tête bêche. Reprints of Nos. 47 to 51 inclusive often have a diagonal line across the "S" of "CENTS" and a short line from the bottom of that letter to the frame below it. Originals of No. 53 show parts of a frame around "BOLIVAR". This frame does not appear on the reprints.

Commemorative of General Francisco Antonio Gabriel Miranda.

In 1900 the original dies were sent to Barcelona, Spain, where new stones were made by transfers from them. Sheets printed from these new stones show many varieties that did not exist among the originals. There are numerous tête bêche pairs of all values, such artificial errors as "Correos," "Corroes," "Miranda," imperforate and partly perforated stamps, etc. When the reprints reached Venezuela, some of them were substituted for the original stamps and mixed in the stocks in Post Offices. They are known cancelled and it is possible that a few were genuinely used.

The colors of the reprints are duller than those of the originals. They are found in many shades. The paper of the originals is thin, white and semi-transparent. The gum is shiny and cracked. It is usually white but sometimes yellowish and tinting the paper. The paper of the reprints is thick, opaque and yellowish from cream to almost buff. The gum is dull, smooth, thin and only slightly adhesive.

Carupano Issues.

In 1902 Great Britain, Germany and Italy, seeking commercial free zones in tertiary languages, established the state of Carupano, a part of the territory that was isolated and issued the following provisional stamps. A treaty effected May 7, 1904, referred the issue to the flag of the buna.

Nos. 180 to 213 were issued by a group of revolutionists for speculative purposes but they appear to have had a limited local use. The dates on the stamps are commemorative of a compact with Spain against Josepa Bonaparte and of the declaration of Venezuelan independence.

Reprints have been made in large quantities. They are from new plates showing alterations in the designs and borders. The names of various states and districts are included in the settings or overprinted on the stamps. Errors of color, etc. are provided. The control mark is from a new handstamp and many of the stamps are cancelled "to oblige" with a different cancellation from that used on the original stamps.

The 50c with center in blue was never issued although copies were postmarked by favor.

There were two printings of all denominations of this issue except the 1b. In the first the centers were separately printed and often vary in shade from the rest of the design. In the second the entire design was printed at one time.

Only one copy of No. 101a is known. The watermark is believed to have been "SIX PENCE" but only "PENICE" appears on the stamp.

All values of the 1864-67 series except the 3p and 8p are known on unwatermarked paper but they are probably varieties from watermarked sheets which have been so placed on the printing press that some of the stamps escaped the watermark.

The four letters in the overprint are the initials of Russian words equivalent to "Western Ukrainian National (or Peoples) Republic." The country was formed from Bukovina and the eastern part of Galicia, formerly provinces of the Austro-Hungarian Empire. The best available information is that Ukrainian and Western Ukrainian were separate and independent governments.

ZANZIBAR, AF.

(zân'zi-bâr': zân'zi-bâr')

A British Protectorate consisting of the islands of Zanzibar, Pemba and several smaller ones about twenty miles off the coast of Tanganyika in East Africa. British interests were recognized as supreme in 1890 by an agreement among France, Germany and Great Britain whereby the latter renounced all claims in Madagascar in favor of France and ceded Heligoland to Germany. By an agreement of 1895, the Sultan leased to Great Britain a strip of territory on the mainland which is included in Kenya colony. (See Kenya and Uganda.)

WATERMARKS

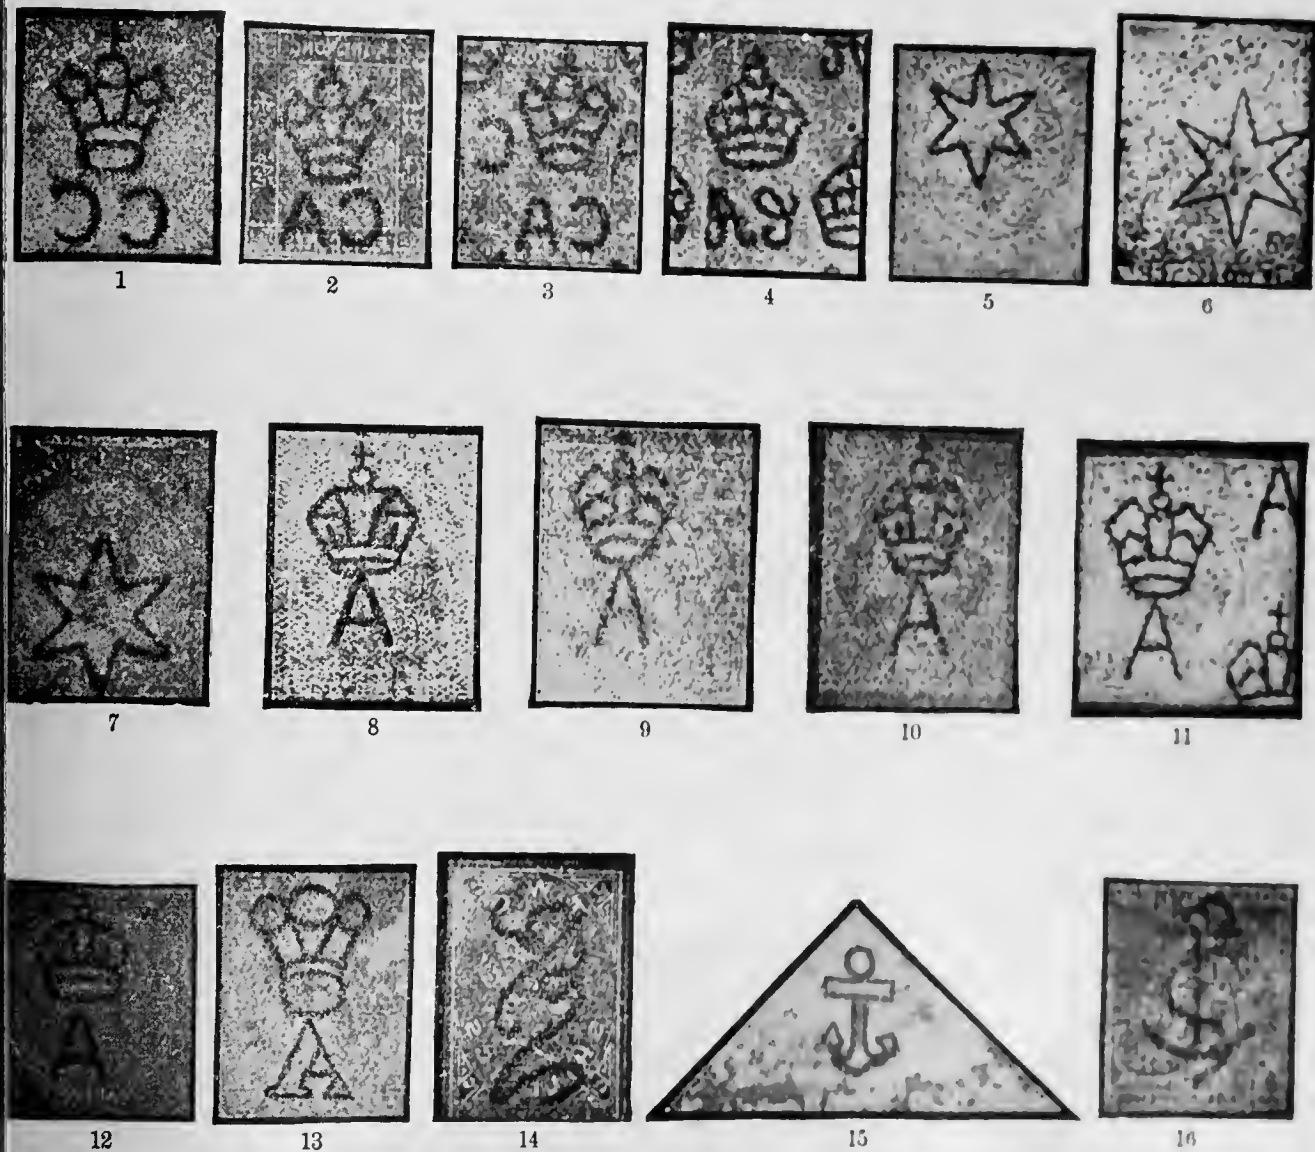

This section illustrates every watermark appearing on the postage stamps listed in this catalogue.

These illustrations were made through a photographic process and are exact reproductions of the watermarks as they appear on the stamps selected.

In compiling a group of illustrations such as this it is impossible to show every minor variation of the watermarks. In fact, hardly any two watermarks are alike in every detail. This is because of the manner in which they are made. viz:

Pieces of wire are bent to form the designs and are then sewn or soldered onto a cylinder of wire mesh. The designs are known as "bits" and the cylinder with the bits attached as the "dandy roll." The dandy roll is placed so that it squeezes out the water from the paper as it passes from the pulp state to the drying rolls, and while performing this function also leaves the impressions of the bits in the paper. These impressions are watermarks.

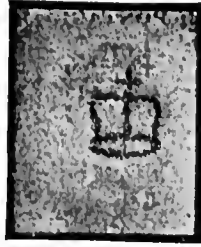

The bits often become bent during the process of attaching them to the dandy roll itself; thus causing countless minor variations in the designs impressed into the paper. When bits are stamped from thin brass sheets, there is not so great an opportunity for these variations to occur.

Albums To Fit Your Collection

Scott Albums are designed to care for the needs of every collector. Somewhere in the line, whether you are a beginner, an expert, a general collector or a specialist, is an album to fit your collection and to provide for its growth.

For beginners, the albums begin with the "Acc." a good general album providing spaces for about 3,700 stamps, and continue through the Dollar series to the Junior.

For most general collectors, the Junior is the ideal album. Large enough to hold all but comparative rarities, it provides wide scope without discouraging bulk. Beyond that is the International series, complete for the stamps of the world.

For specialists, there are three one dollar albums and the famous "Scott Specialties" which divide the philatelic world into its logical, collectable units.

A variety of Blank Albums provides for the needs of advanced collectors.

United States Postage Stamps

Illustrated and Identified

THIS pamphlet illustrates and describes all of the following categories of United States Stamps: Postage; Air Post; Air Post Special Delivery; Parcel Post; Special Handling; Official; Postal Savings Department; Special Delivery; Registration; Newspaper; Postage Due; Parcel Post Due. Revised edition, with new Catalogue numbers, will be published early in October, 1939.

Every United States postage stamp differs from every other United States postage stamp by some one or two distinguishing features. The design on two stamps may be and often is the same, but they are different from each other because one is watermarked, the other is not, or one is perforated 12, the other perforated 11, and so on. The text of this booklet lists together all stamps of similar design, each being noted with its distinguishing feature identifying it from all others in the list, and gives the proper Catalogue number for each stamp.

THE MACON DETECTOR

Patent applied for

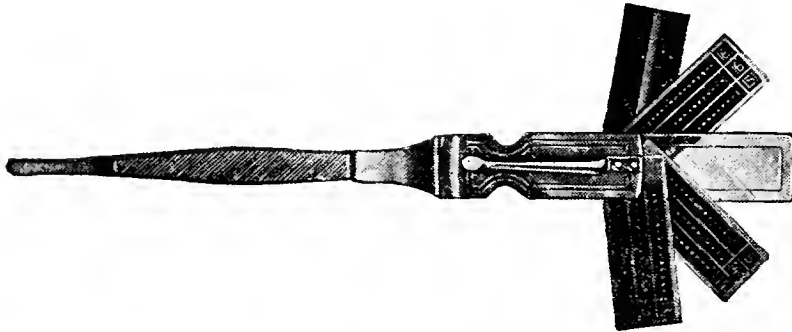

A scientific but simple and surprisingly effective unit for bringing obscure watermarks, repairs, cancellations, etc., into view. Designed in accordance with correct optical principles by one of our old collectors whose annoyance with bright colored stamps—especially the yellows and oranges—led to a laboratory study of the problem. The Macon Detector is the result, designed and constructed to give collectors a maximum of visibility at modest cost. It consists of two parts: the Base, and the detachable Top. The base is an optically effective watermark cup, specially designed in collaboration with experts for use in the customary manner. If the stamp is one whose watermark does not emerge plainly, the stamp is simply viewed through one of the three optical "Windows" in the detachable top. It is as simple as that.

Almost overnight the Macon Detector has rendered the old-fashioned method obsolete. An ideal gift for any collector—from beginner to expert.

SCOTT'S Dependable STAMP HINGES

Hinges, even the best, are so infinitesimal in cost as compared with the damage to even a cheap stamp that a poor hinge may cause that no one should consider a hinge that is not of the finest quality. Scott Hinges are a combination of paper and adhesive that we can offer after long experimentation, as perfect and safe to use on any stamp. They are absolutely peelable under all conditions, tasteless and tough.
